

Ukyo Nagata

Ukyo Nagata / MaaS Creative Inc.

Doctoral Program, Iwate Prefectural University

Profile

Researcher in public administration and management science, specializing in evaluation research focused on public transportation policy including railways, buses, aviation, maritime transport, and taxis.

Committed to developing and validating policy technologies that maximize human creativity in the age of generative AI.

Current Work

As CEO of MaaS Creative Inc., he develops evaluation systems and planning support tools that use generative AI as both a tool and an interface.

The work is guided by the theme "More Creative Public" and focuses on human-AI collaboration.

Research Themes

- Public policy
- Political science
- Regional public transportation policy and governance
- AI utilization in public policy
- Creativity, mobility, MaaS, public-private partnership, and policy formation

Papers and Publications

- Can "Japanese MaaS" be considered as a type of "Transportation Community Development"? - A study on objectives and governance
- A Study on Ideal Subsidy Systems for Regional Public Transportation - Focusing on arguments for escaping deficit compensation
